**YOUR CURRENT THEME**

### default-bootstrap version 1.0

Designed by PrestaShop

**Customize your theme**

Customize the main elements of your theme: sliders, banners, colors, etc.

[Theme Configurator](#)

  

**Configure your theme**

Configure your theme's advanced settings, such as the number of columns you want for each page. This setting is mostly for advanced users.

[Advanced settings](#)

## + Step 2: Upload theme

 IMPORT FROM YOUR COMPUTER

Zip file

 blanc\_theme\_1617\_v10.zip

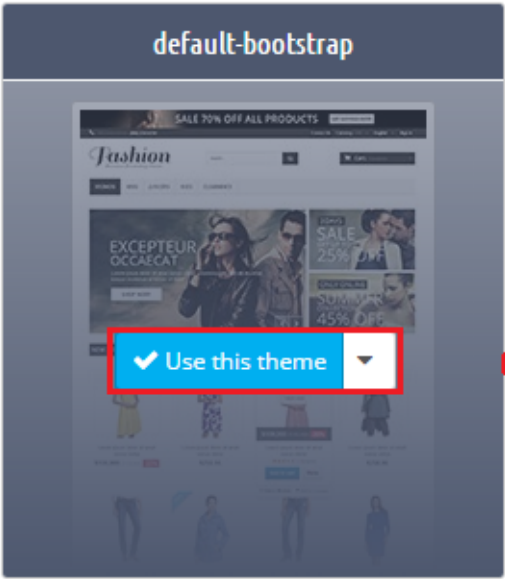

*Browse your computer files and select the Zip file for your new theme.*

  
Save

### + Step 3: Select theme

⚙️ SELECT A THEME FOR THE "WATERTHEME ZEROK" SHOP

Select theme default

+ Step 4: Configure modules

🖼️ MODULES TO INSTALL

? Themes often include their own modules in order to work properly. This option enables you to choose which modules should be enabled and which should be disabled. If you are unsure of what to do next, just press the "Save" button and proceed to the next step.

Select the theme's modules you wish to install

+ Show 17

Select the theme's modules you wish to enable

+ Show 33

Select the theme's modules you wish to disable

+ Show 20

Select the modules from the old default-bootstrap theme that you wish to disable

+ Show 11

+ Step 5: Finish

• [documentation](#)

! Warning: You may have to regenerate images to fit with this new theme. [Go to the thumbnails regeneration page](#)

- ✓ Images have been correctly updated in the database
- Name image type **img-categories** (width: 170px, height: 170px).
  - Name image type **cart\_default** (width: 56px, height: 56px).
  - Name image type **small\_default** (width: 94px, height: 94px).
  - Name image type **medium\_default** (width: 130px, height: 130px).
  - Name image type **home\_default** (width: 240px, height: 240px).
  - Name image type **large\_default** (width: 458px, height: 458px).
  - Name image type **thickbox\_default** (width: 800px, height: 800px).
  - Name image type **category\_default** (width: 875px, height: 320px).
  - Name image type **scene\_default** (width: 875px, height: 320px).
  - Name image type **m\_scene\_default** (width: 161px, height: 58px).
  - Name image type **manu\_size** (width: 96px, height: 47px).

Finish

III. Configure - After Installation

After complete the installation of the theme, you need to do some changes in configuration in order to make sure the theme works and looks correctly.

1. Check the position of module in Back Office

In your back office go to **Modules > Positions**, you check **"Display non-positionable hooks"** so see all hooks.

Go to **Preferences > Themes**, Click **Advanced settings** and setting columns

Go to **Preferences > Image**, configure "Width" & "Height" as image follow

	ID	Name	Width	Height	Products	Categories	Manufacturers	Suppliers	Stores	
										Search
<input type="checkbox"/>	10	cart_default	90 px	90 px	✓	✗	✗	✗	✓	Edit
<input type="checkbox"/>	11	small_default	120 px	120 px	✓	✗	✓	✓	✓	Edit
<input type="checkbox"/>	12	medium_default	640 px	640 px	✓	✓	✓	✓	✓	Edit
<input type="checkbox"/>	13	home_default	300 px	300 px	✓	✗	✗	✗	✓	Edit
<input type="checkbox"/>	14	large_default	520 px	520 px	✓	✗	✓	✓	✓	Edit
<input type="checkbox"/>	15	thickbox_default	800 px	800 px	✓	✗	✗	✗	✓	Edit
<input type="checkbox"/>	16	category_default	960 px	380 px	✗	✓	✗	✗	✓	Edit
<input type="checkbox"/>	17	scene_default	870 px	270 px	✗	✗	✗	✗	✓	Edit
<input type="checkbox"/>	18	m_scene_default	161 px	58 px	✗	✗	✗	✗	✓	Edit

REGENERATE THUMBNAILS

## V. Other Configure

### a) Multi Language

- In your back office, go to **Localization > Translations**, add or update language for site.

Localization / Translations

Translations

?

Help

ADD / UPDATE A LANGUAGE

?

You can add or update a language directly from the PrestaShop website here.  
If you choose to update an existing language pack, all of your previous customizations in the theme named "Default-bootstrap" will be lost. This includes front office expressions and default email templates.

Please select the language you want to add or update

Afrikaans (Afrikaans)

Add or update a language

- In your Admin, go to **Localization > Translations** to modify translations

First, select a section (such as Front Office or Modules), then click the flag representing the language you want to edit.

MODIFY TRANSLATIONS

?

Here you can modify translations for every line of text inside PrestaShop.  
First, select a type of translation (such as "Back Office" or "Installed modules"), and then select the language you want to translate strings in.

Type of translation

Front Office translations
